**MCV SERIES**

PRODUCT	PROBLEM	SERVICE BULLETIN #	COLOR
MA 56, 57, 70, 91, 93 When used w/remote control	Audio feed through problem on transmit with remote units.	78-0147	W
All current models	Available service information.	78-0149	W
E & R Tone Wideband Receivers	Filters	78-0151	G
MA 126, MA 79 Handset used with MCH 40, MCU 30	Bassey Transmit Audio	79-0158	W
MA 305 Helical Preselectors	Revised MA 305 Service Manual.	79-0159	W
412 and MCB/CBS Base Stations	SCR overvoltage circuit failure in P1412.	79-0161	W
MA 114, 115, 146, 164 Mic Hangup	Intermittent CTCSS Operation.	79-0163	W
MA 116 Board 504-046 REV. A & B	Changes necessary when using in Repeater with tone control board.	80-168	B
MA 147 Board 1700-5416-000 Rev. C	False Decoding	80-169	W
MA 177 Imp. Adapter	Hum on transmit and receive audio.	80-172	W
P1412 Power Supply	Definition of circuit changes. Revisions A, B, C.	80-177	W
MA-116 P.C. Board 504-046 REV. "C" only	Low receive sensitivity after transmitter is keyed.	80-178	W
P1412 Power Supply	Definition of circuit changes. Revision D.	80-188	W
MA 318, 178	Transmitter keys when handset is lifted.	81-192	W

W = White    B = Blue

## OPTIONS AND TONES

PRODUCT	PROBLEM	SERVICE BULLETIN #	COLOR
MA 319	Remote base with tone will not go into monitor mode if used with local telephone.	81-193	W
P1412 Rev. C and D	High line voltage causes Power Supply SCR to fire and shut off output.	81-195	W
MA 325	Installation instructions for units other than the MCB.	81-203	W
MA 301, 131	Compatibility of MA 301 and MA 131.	81-208	W
MA 186, 314, 315	RF causing DTMF tones (MA 186, MA 315) 2805 tone (MA 314) not to be transmitted or distorted when transmitted.	81-212	W
MA 325	Will not fit into XLH series radios due to short wire lengths. Also MA 325 will not fit into MCU series mobile radios due to speaker interference.	81-213	W
MA 164, 166, 300	Addendum to Service Manual.	81-221	W
MA 325E	Reference Service Bulletin 81-203 Figure 2.	81-222	W
MA 187	Addendum - hook up information for installing in the TRPH radio.	82-228	W
MA 317	Modification of the MCA611A Rev H and lower necessary for MA 317 installation.	82-232	W
MA 355	Will not stop on active channel when used with CTCSS decoder.	82-233	W

the new road network  
is being built now  
in the area of 20000

hectares and will  
allow the firm to  
expand its production  
and sales volume.

He said the company

is also looking at  
investing in a new  
factory in the area  
of 100000 square

metres to produce  
high quality products  
for the local market.

The company has  
also invested in a

new factory in the

area of 100000 square

metres to produce  
high quality products

for the local market.

The company has  
also invested in a

new factory in the

area of 100000 square
